Company

NOOKA Inc.

Membership type & since

Local House, New York, since March 2010.

What do you do?

As chief creative officer of NOOKA, I create provocative fashion objects to inspire optimism and promote universal communication.

What are you working on right now?

An iPhone and iPad app, an animation treatment for my nookanooka characters, designing new lines for holiday and 2011, as well as doing marketing for my sunglasses and fragrance.

Who inspired you the most when you were starting out?

As a child, I found the work of Pierre Cardin, Issey Miyake and André Courrèges inspiring, but it was reading *Hyperspace* by Michio Kaku that inspired me to totally question my thought processes. This was the the genesis for my starting NOOKA.

What's inspiring you right now?

Some new children's animation, especially two shows on the Cartoon Network: *The Marvelous Misadventures of Flapjack* and *Adventure Time*. Also, new architecture along the Highline in Chelsea is really getting me more excited about NYC (as if that were possible!).
